### About

I'm a 22 years old passionate Full Stack Developer with expertise in modern web technologies like Next.js, SvelteKit, node.js, Prisma ORM and much more....With 185 LeetCode problems solved, I'm continuously sharpening my skills.

### Projects

**E-Restoran** Apr 2024 – Nov 2024  
E-Restaurant is a powerful web application that simplifies order management by seamlessly integrating platforms like Trendyol, Yemeksepeti, Migros, Getir, and Fudy. Manage your orders, couriers, and restaurants all in one place, along with a host of other advanced features to streamline your operations.  
<https://www.e-restoran.com/> 📄

**QBite** Sep 2023 – Mar 2024  
Q-Bite is an online platform that empowers restaurant owners to create fully customizable menus linked to QR codes. With Q-Bite, you can easily modify colors, update your logo, and add, edit, or remove meals with different currency—all without any coding knowledge. The platform supports both Arabic and English.

### Courses

**Microservices with Node JS and React** Aug 2024 – Sep 2024 📄  
Learned to build full-stack web applications using Node.js (TypeScript) and React, leveraging microservices architecture. Gained hands-on experience with Docker for containerization, Kubernetes for orchestration, Scaffold for development automation, and NATS for messaging between services, from development to deployment.

**Next.js 14 & React - The Complete Guide** Aug 2023 – Sep 2023 📄  
The course taught me to create responsive websites using React.js, integrating Redux.js and Router.js for state management and navigation. Additionally, I learned API interaction and data rendering for dynamic web applications with Next.js.

**React, NodeJS, Express & MongoDB - The MERN Fullstack Guide** Dec 2022 – Jan 2023 📄  
The course helps you to build a complete Mern stack project from scratch and the way the mern skills are interconnected

**React Native - The Practical Guide** Jan 2025 – Mar 2025 📄  
In this course, I've learned how to build mobile applications from scratch using React Native, creating dynamic and responsive user interfaces. I also gained expertise in implementing authentication and authorization and integrating the app with a backend.

### Work Experience

**Arniva, Full Stack** Apr 2024 – present | Muğla, Türkiye 📄  
Working on restaurant management system integrated with trendyol, yemeksepeti and getir..., using node.js, sveltekit, prisma, mysql and much more.

**Mena Gate, Internship Full Stack** Jul 2023 – Sep 2023 | İstanbul, Türkiye 📄  
At Mena Gate, I have worked alongside experienced software engineers who have helped me learn team collaboration and discipline. I have also utilized cPanel, Linux.
